

## Expanded Metal – Product Data Sheet

Mesh Ref No: **HEX 19-01A**

**Raised Aluminium Mesh**

<b>LW Pitch:</b>	<b>19.05mm</b>	<b>Strand Width:</b>	<b>1.22mm</b>
<b>SW Pitch:</b>	<b>12.70mm</b>	<b>Thickness:</b>	<b>1.20mm</b>
<b>Weight:</b>	<b>0.55 kg / m<sup>2</sup></b>	<b>Open Area:</b>	<b>81%</b>

<b>Material:</b>	<b>Aluminium – Grade 1050 H14</b>
<b>Sheet Size:</b>	<b>1250mm LWD x 2500mm SWD</b>

All expanded metal products are manufactured from a single piece of raw material and are created as a continuous mesh with no joints or loose strands. The finished product has a greater strength to weight ratio than the un-expanded parent material. Available in sheets or coil form (certain products only). Expanded metal by its very nature is a green product with almost no wastage arising from the manufacturing process. Additional specification variations are available, please contact us for more information.
