

## Expanded Metal – Product Data Sheet – Designer Mesh

Mesh Ref No: **MARVIN**

**Raised Mild Steel Mesh**

<b>LW Pitch:</b>	<b>12.70mm</b>	<b>Strand Width:</b>	<b>2.70mm</b>
<b>SW Pitch:</b>	<b>9.50mm</b>	<b>Thickness:</b>	<b>0.90mm</b>
<b>Weight:</b>	<b>4.00 kg / m<sup>2</sup></b>	<b>Open Area:</b>	<b>43%</b>

**Sheet Size:** 1250mm LWD x 2500mm SWD

**Material:** Mild Steel – Cold Reduced DC01 to BS EN 10130.  
Pre Galvanised Steel - DX51D +Z, Aluminium – Grade 1050 H14.

All expanded metal products are manufactured from a single piece of raw material and are created as a continuous mesh with no joints or loose strands. The finished product has a greater strength to weight ratio than the un-expanded parent material. Available in sheets or coil form (certain products only). Expanded metal by its very nature is a green product with almost no wastage arising from the manufacturing process. Additional specification variations are available, please contact us for more information.
